

TREE CLAMPS

Tree clamps enable the Light This Light That light to be fixed high in trees. The Light This Light That Tree Clamps, unlike most other types actually expand with the trees natural growth and don't choke the tree. The light can be moved vertically, horizontally and around the tree to fix in the desired position.

NAME	CODE	DIMENSION	APPLICATION
Tree Clamp 40	AMTC40	40 mm diameter	Part used to fix Lights in trees. Easy to move the light to desired position without choking the tree.
