

# SPIKE MOUNT EXTENSIONS

The “Bondi Barrel” uses spikes to mount them in ground. They are screwed into the back of the garden light. They are available in different lengths for different applications and can be bent to customise the desired light direction. All lights come packaged with a standard 200mm spike (LT 12, 21 & 30) and 100mm for LT1 “Bondi Barrel ‘Bullett”.

## SPIKE EXTENSIONS

|  | NAME                       | CODE      | DIMENSION           |   | APPLICATION |
|--|----------------------------|-----------|---------------------|---|-------------|
|    | 5mm 500mm spike aluminium  | AMS5A500  | L 500 mm<br>W 5 mm  | Part used when the mounting spike packaged with the garden light is not long enough achieve desirable height of light off ground. |             |
|  | 5mm 750mm spike aluminium  | AMS5A750  | L 750 mm<br>W 5 mm  |   |             |
|  | 5mm 1000mm spike aluminium | AMS5A1000 | L 1000mm<br>W 5mm   |   |             |
|  | 5mm 500mm spike Copper     | AMS5C500  | L 500 mm<br>W 5 mm  |   |             |
|  | 5mm 750mm spike Copper     | AMS5C750  | L 750 mm<br>W 5 mm  |   |             |
|  | 5mm 1000mm spike Copper    | AMS5C1000 | L 1000 mm<br>W 5 mm |   |             |
